County Board condones practice but .

Bowman Crifizes Free House, Meals

Louis Bowman, Republican candidate for sheriff in Madison County, said today he could not "legally or morally" continue the practice of free room and board if he is elected sheriff, legally or morally continue the past practice of our present sheriff by causing the taxpayers of this county to (provide) me with a residence and free meals," Bowman said in a prepared statement.

Bowman offered a section of the Illinois statutes, which says the sheriff has no estate or interest in the jail, as one part of his legal argument.

"As for the moral aspect, why as chief law enforcement officer (sheriff) of the county should I demand and deprive the taxpayers of this county the full benefit of their tax dollar." Bowman said.

Bowman said he would prefer to take the present living quarters of the sheriff and use it for additional office space.

"I would prefer to renovate the quarters of the present sheriff, and utilize this much needed space for an up-to-date communications center and various investigative bureaus so essential to any qualified law enforcement agency," he added.

Because things are tough for all of us right now: inflation, housing problems, unemployment, and a bad business picture

And giving money to Adlai Stevenson's Senatorial cam-paign may not seem like something we can really afford.

But think about it. With inflation, unemployment, violence, war that doesn't seem to end, and an Administration that doesn't seem to understand, we really can't afford not to.

Give whatever you can. Today. If we didn't need it, we wouldn't ask.

### SPECIMEN BALLOT

I, Eulalia Hotz, County Clerk of Madison County, Illinois, do hereby certify that the following is a full, true and correct copy of the official ballot to be voted at the General Election for Pioposed Amendment to Article IX-A on November 3, 197) in Madison County, Illinois.

Eulalia Hotz

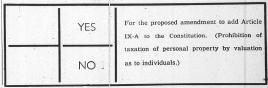

### PROPOSED AMENDMENT TO ADD ARTICLE IX-A

(Prohibition of taxation of personal property by valuation as to individuals.)

### Explanation of Amendment

The amendment would abolish the personal property tax by valuation levied against individuals. It would not affect the same tax levied against corporations and other entities not considered in law to be individuals. The amendment would achieve this result by adding a new article to the Constitution of 1870. Article IX-A, thus setting aside existing provisions in Article IX, section 1, that require the taxation by valuation of all forms of property real and personal or other, owned by individuals and corporations.

### STATEMENT AND SUGGESTIONS

Scope of the Program. This measure authorizes the financing of bonds to the amount of \$750,000,000. Proceeds of the bond issue will be used for planning, financing and constructing municipal sewage treatment works and solid waste disposal facilities. These funds will provide the State portion for a program of joint State and Federal financing for these projects.

Term, Interest and Sale of Bonds. The bonds are to be fully retired within 25 years of the date of issue. They are bear interest at a rate of not more than 7% per year. The issuance, sale and retirement of the bonds will be under the supervision and control of the Environmental Protection Agency, created by the "6th General Assembly. The bonds are to be sold, after newspaper publication of notice, to the "highest and best bidders, for not less than their par value, upon sealed bids."

Payments to be Made, Payments to the principal and interest of the bonds are to be made from an Anti-Dollution.

Payments to be Made. Payments on the principal and interest of the bonds are to be made from an Anti-Pollution Bond Retirement and Interest Fund in the State Treasury, as provided in the Act.

Bond Retirement and Interest Fund in the State Treasury, as provided in the Act.

In order that this Bond Fund contain sufficient moneys to meet the required payments, the General Assembly is authorized to direct the transfer, from time to time, of State funds from the General Revenue Fund to this Bond Fund. The General Revenue Fund is supported by a major portion of the tax revenues of the State. As evidence that the bonds are to be the general obligation of the State of State State State State and personal property in the State subject to taxation in the event that the General Assembly would fail to transfer state funds from the General Revenue Fund to the Anti-Pollution Bond Retirement and Interest Fund.

Referendum Requirement. The Act providing for this bond issue will go into full force and effect only if it receives a majority of the votes cast for members of the General Assembly at the November, 1970 election.

### STATEMENT AND SUGGESTIONS PREPARED BY THE SECRETARY OF STATE AND APPROVED BY THE ATTORNEY GENERAL OF THE STATE OF ILLINOIS

TO THE VOTERS AT THE GENERAL ELECTION TO BE HELD THROUGHOUT THE STATE OF ILLINOIS, TUESDAY, NOVEMBER 3, 1970

Pursuant to House Bill No. 2420 passed as an Act of the 76th General Assembly of the State of Illinois a proposition is to be submitted as a public measure to be voted on at the general election on November 3, 1970 and the proposition so submitted will appear on a separate pink ballot, except that where voting machines or electronic voting systems are in use, such voting machines or electronic voting systems are in use, such voting machines or electronic voting systems may be used to vote upon such proposition, as follows:

Shall an Act to amend Section 5 and 22 of the "Illinois Banking Act," approved May 11, 1955, as amended, assuring that Illinois state banks are	YĘS	
continuously in competitive equality with national banks located in Illinois both as to powers here- after exercised and as to methods of merger, be adopted?	NO	

If a majority of the votes upon such question are for the adoption of this amendatory Act, the Governor shall, thereupon, issue his proclamation that this amendatory Act is then in force.

A statement setting forth in detail the provisions of the proposed amendments to the Illinois Banking Act has been certified to the County Clerk for filing and preservation for public inspection.

Pursuant to the statutes of the State of Illinois in such case made and provided, the following Statement and Suggestions have been prepared for publication and posting as being necessary to afford a proper understanding of the proposition to be voted on as aforesaid.

### STATEMENT AND SUGGESTIONS

The proposed amendment to Section 5 of the Illinois Banking Act is simply intended to place an Illinois State bank in a position of equal competitive quality with National banks. The amendment would permit an Illinois State bank to do any act and to own, possess and carry as assets property of such character, including stocks, which at the time is authorized to National banks. However, this would always be subject to the same limitations and restrictions as might apply to National banks by the pertinent federal law.

The amendment to Section 22 merely provides, where there is to be a merger or consolidation and are result of such merger or consolidation is a State bank, the statute would specify the terms to be equired within the merger agreement.

Approved this 28th day of April, A.D., 1970 WILLIAM J. SCOTT Attorney General.

Merrill Ottwein (R), one of the most congenial,
conscientious, deep-thinking men ever to serve
in the Illinois General Assembly.

His opponent Nov. 3. Sam M. Vadalabene, has been one of the hardest-working
members of the House of Representatives. Declude the Quad-Cities, he is well and favorably
known here and is the favorite to win the Sentate seat in view of the Democratic majority in
the voting population of this area.

We endorsed Mr. Vadalabene in the primary over an outstanding former state's attorney and we would be comfortable with him

### Maeras for County Sheriff

seras for County Sheriff

SHERIFF—It has become fashionable in the northern part of Madison county to oppose anyone named Maeras and anyone closely associated with the Madison political organization. We reject such categorizing of people and candidates and we would like to see John Maeras (D), present county treasurer, have the opportunity to serve as sheriff and the server as sheriff and the server as the server of a country of the server as the server of a country of the server as the server of a country to server as the server of another former Madison police department product, Barney Fraudorf.

Another attractive candidate for sheriff next month is the Republican nominee, Louis Bowman, a former captain and chief investigator under Sheriff Fraudorf. Considered the favorite in the November balloting, Mr. Bowman has experience on the Alton police force, with Navy investigation and security units and in his own investigative agency. He proposes to describe the server of modern crime preventive methods.

# Congressman Rodenberg to Speak

OCTOBER 28, 1920

Everything is in readiness for a political rally which will be held at the Rialto theatre on State street. The Granite City band will play and speakers will include Congressman William A. Rodenberg.

Apathy seems to be gripping politics at the Madison county seat. With the election only a week away, wild claims are being made by both the Democratic and Labor parties as to the probabe risult, but wise old heads at the game claim to see nothing tangible on which to base any estimate other than a Republican majority.

# The new world of Electric Heat

More and more Illinois families discover the modern idea in home comfort!

Advertising Supplement to the Granite City Press Record

# Why Illinois families warm up to

"Mobile home living is wonderful, especially with electric heat," say Mr. and Mrs. Layne Triplett of Urbana. "There's no fuss, no fuel to order. Just set the thermostat and you have perfect comfort in every room."

# Electric Heat

Electric heat has proved itself for years in the homes of many Illinois families. These homes are located in cities, suburbs and rural areas. They range from new ranch houses to stately "steamboat gothic", mobile homes and apartments.

Whether the residents are young swingers or senior citizens, big families or small, they agree, "Once you've lived with electric heat, you'd never settle for anything else."

© ILLINOIS POWER COMPANY, 1969

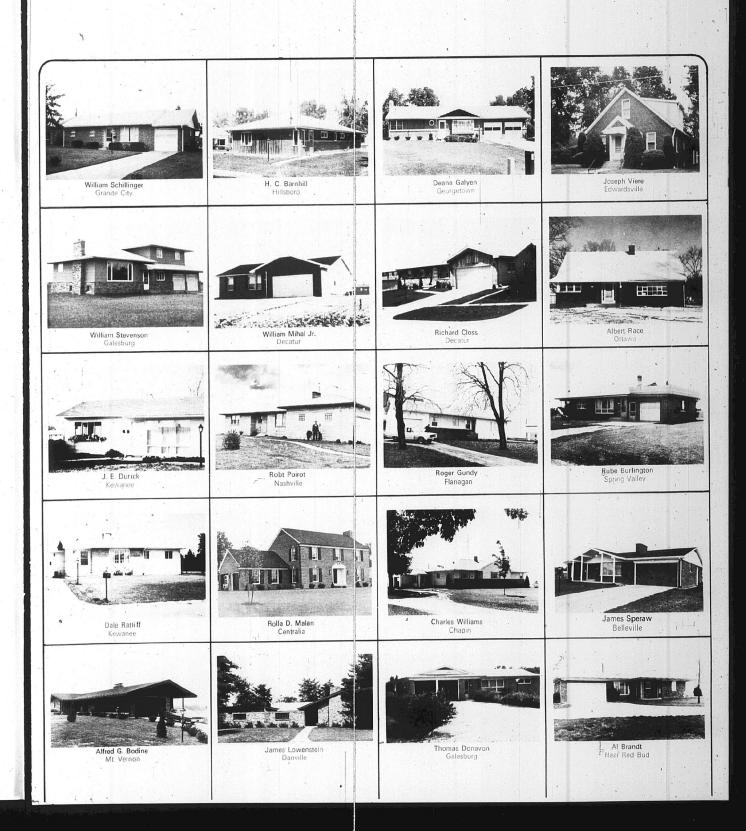

"We recommend electric heat because we enjoy carefree living," says the William Johnson family of Rio, Illinois. "Because our electric baseboard heaters are so carefree, there's more leisure time to spend with the family.

And it's made even more enjoyable with the room-toroom temperature control we get."

"The comfort of electric heat beats anything. We think it's the most satisfying heating system there is," say Mr. and Mrs. Virgil Valerius of Belleville, Ill.

# Apartment dwellers bask in the new heat wave...

Electric heat helps make apartment living enjoyable for residents of the Warfield Apartments in Monmouth.

s Talbott

Johnson

Apartments and townhouses offer a way of life that more and more couples and families find enjoyable and convenient. And electric heat adds the final touch of comfort and convenience that makes apartment living luxurious.

There's an individual temperature control for each apartment. Heat that's gentle and uniform from floor to ceiling. Warmth you can feel almost instantly when you move up the thermost at.

The satisfaction of his tenants would be reason enough for an apartment owner to install electric heat. But there are advantages on the owner's side, too. Electric heat saves space, a prime consideration when building costs are soaring.

There's little or no maintenance, another big factor these days. And the cwner is assured that the heating system will never be out of date—if it's electric.

The modern Ken Greene Apartments in Mt. Vernon are electrically heated throughout.

# building owners vote for Electric Heat too.

# Unique features make Electric Heat ideal for commercial and municipal buildings

It's easy to see why electric heat is the choice for more and more public and commercial buildings.

Architects and contractors recognize the flexibility in design and economy of space that electric heat provides.

Building owners and managers find that uniform electric heat means satisfied tenants.

Nursing homes and motels discover that clean, gentle electric heat provides the ideal comfort their guests need.

Members of boards and commissions responsible for public buildings, churches and schools have found that an electric heating system permits heating of only that part of the building actually being used. Important, too, is the fact that electric heat requires practically no maintenance and will last the lifetime of the building.

Shown on these pages are just a few of the buildings in Illinois Power territory that are heated the modern way—with electricity.
